Provider network: there's always a provider in sight

One size does not fit all. That's why we created a vision network that features both private practice and retail providers to give you a choice for your eye care. Some people prefer the personal service of a private practice provider, especially if they have a long-standing relationship with a family eye doctor. Others want the convenience of a retail chain providers, which offers evening and weekend hours.

UnitedHealthcare offers a diverse vision network of nearly 60,000 access points nationally. This includes both private practice and leading retail chain providers. Our plan allows you to pick the eye doctor that matches your lifestyle and eye care needs.

Finding an eye doctor is easy.

Simply go to myuhcvision.com and use the provider locator tool for a complete list, including door-to-door directions. You can also call **1-800-638-3120** to speak with a Customer Service representative.

Contracted retail chain providers¹
